

Welcome to the DLI Marketing Kit

Direct Link Interface (DLI) is a data link gateway supporting the exchange of data link messages between training systems and simulated data link participants in the DIS environment. DLI allows users to route data between multiple data interfaces, with options to filter DIS and Link 16 data and the capability to log notifications for troubleshooting purposes.

This Marketing Kit Includes:

- 1) DLI Computer Wallpaper
- 2) DLI Promotional Video
- 3) DLI Brochure
